

## Peg Puller Picket or Peg Remover

Simple to use T-Post Lifter - Steel Fence Post Puller that efficiently removes stubborn Pickets & Pegs. Made in Australia

Push it in place and simply pump the stake out. Pulling straight up is easier, because it eliminates side loading and strain on the operators back.

### JACKJAW models remove:

- Concrete form pins and stakes
- Tent stakes and rebar from hard ground
- Flat stakes
- Sign posts - U pickets, square and round posts
- Utility grounding rods
- Drill rods for nuclear density gauges
- Star pickets
- Concrete form pins and stakes

### Made to Last

The powder coated JackJaw Extractors are made from heavy gauge steel plate and tubing to withstand everyday job site use. Two holes in the 10cm by 20cm base plate allow you to attach it to a board for an even wider base for working in soft conditions. No paint to chip. Jack Jaw has a clear zinc plating for lasting durability that will resist corrosion.

### Gripping Force

The gripping jaws of the JackJaw Extractor are made from case hardened AR400 steel that will last for thousands of pulls. When it is necessary they are easily replaced in the field using common tools to install the new jaws.

### Bisalloy Jaws

Bisalloy Steels is Australia's only manufacturer of high-tensile and abrasion-resistant quenched and tempered steel plate.

Available in 2 types - Tall or Short  
Available JackJaw openings: 10mm, 20mm, 35mm & 60mm
