

# Nedo Super Measuring Wheel with Rail Track Attachment

A robust design and quality product, offering a lifetime of reliable rail track measurement.

## Nedo Super Measuring Wheel

The Nedo Super Measuring Wheel meets the highest standards in terms of precision, quality and reliability. Thanks to tight manufacturing tolerances and a high-quality counter, its accuracy is +/- 0.02%, which corresponds to a maximum error of +/- **2cm over a distance of 100m**.

The counter, which has a display resolution in cm, is mounted securely above the wheel and is driven by a toothed belt. Zero setting is done with a hand lever. The brake is integrated into the sturdy rest support. The ergonomic pistol grip and the rugged aluminium guide bar make handling easy at all times. A clever mechanism permits the guide bar to be folded away for transport.

### Features:

- Wheel circumference: 1m
- Measuring range: 0m to 9,999.99m
- Counter arrangement: central
- Resolution: 0.01m
- Weight: approx. : 3.65kg
- Tolerance: 0.02%

## Railroad Track Guide

The track guide keeps the Nedo Super Measuring Wheel from slipping off the track, making it suitable for measurements on railway tracks. It can be fitted easily without tools.

## Transport Case

Sturdy Carry Case for Super Measuring Wheel

Material: Plastic
