

**Nedo mEsstronic Easy**  
**Electronic 5m telescopic measuring Pole**

Made in Switzerland

The Nedo mEsstronic Easy is an easy-to-use electronic measuring tool for the skilled tradesman. Simply place the mEsstronic Easy in position, pull out the extending sections and read off the measurement from the digital display.

The zero function allows to set reference points for relative measurements. Deviations from the reference points are calculated automatically.

The hold button permits the measured value to be retained in the display. In this way, a measurement can be taken in an inaccessible place and then be read off at a more convenient time.

**Features**

- Resolution: 1 mm
- Measuring ranges: From 1.04 to 5 m
- Reliable Nedo digital technology
- Mechanical components based on proven mEssfix technology
- Power supply: 4 x 1.5 V batteries type (AA) or 4 x 1.2 V rechargeable batteries
- Operation duration: approx. 200 hours (continuous use)
- Automatic switch-off after 3 minutes of non-use
- Zero function: fixes reference points for relative measurements
- Hold function: permits use in almost inaccessible places and read-off when convenient

**Optional Accessory**

Measuring jaws for mEsstronic  
 Clip-on measuring jaws for easy and convenient measurements of external dimensions.
